

# Facet Mount™ Installation Instructions

Providing *The Right Way!*® to attach virtually anything to single-ply roofs.

**S-5!**®  
*The Right Way*

**ATTENTION!** This document is a guide only. This product may not be suitable for every application. The user is responsible for all necessary application engineering and design. Please scan the QR code to the right for additional information, warnings and disclaimers regarding product use.

You can also view load test results at [www.S-5.com](http://www.S-5.com) where applicable, or contact your S-5!® distributor for more information.

**THE INSTALLATION BELOW IS INTENDED AS A GUIDE AND IS PROJECT-DEPENDENT.**  
**Always consult a certified structural engineer to review and approve your installation plans.**

## Facet Kit [Based on One Part]

1] Facet Mount

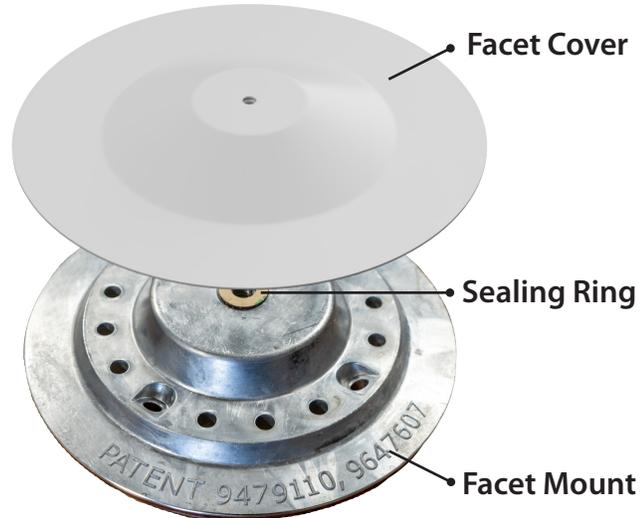

1] Facet Cover

## Tools Required

Roofing screws

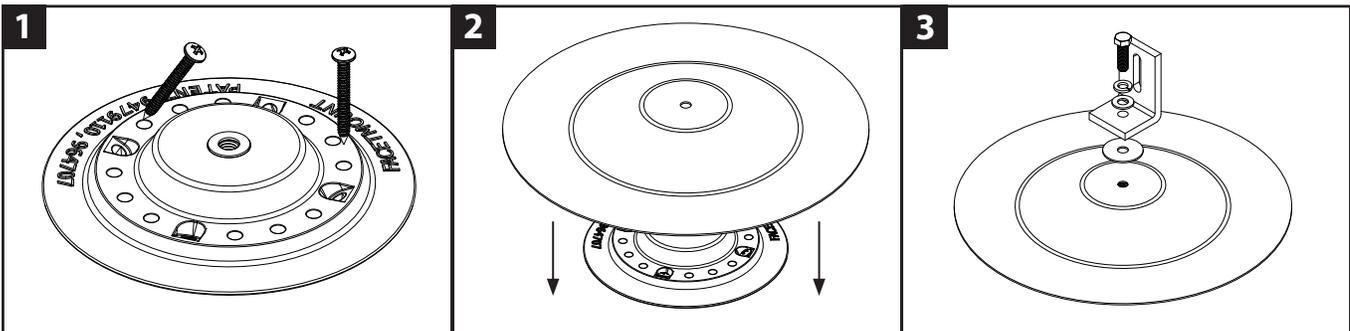

Screw gun

Heat-welder

## How To Install Facet Mount

- 1 Place the Facet Mount in its desired location and install the required roofing screws (sold separately) as determined by a structural engineer's instructions.
- 2 Remove the release paper from the seal at the mounting hole in the Facet Mount, then place the membrane face cover over the Facet Mount and align the top holes.
- 3 Attach accessories to the top of the Facet Mount and tighten according to the manufacturer's instructions.
- 4 Heat-weld the face cover directly to the rooftop single-ply membrane, according to your roofing material manufacturer's specifications.

Note: Any S-5! warranty and/or calculation may be void if a third-party structural engineer has not specified the hardware used. Failure to follow a structural engineer's guidance may result in a substandard installation. These instructions are intended for experienced users. Follow safety precautions and use appropriate tools.
