Subject: Facet Solar Mount by Sustainable Technologies LLC

To Whom It May Concern:

This is to confirm that the Facet solar mount attachment system by Sustainable Technologies LLC may be used with the GAF EverGuard® TPO/PVC roof system or the GAF HydroStop® roof system as an attachment point, for roof mounted equipment systems, provided that it is flashed by a GAF master or master select contractor and all current GAF application requirements are followed and guarantee procedures are met.

This letter only refers to the compatibility of the Facet solar mount attachment system by Sustainable Technologies LLC with the GAF roofing system. This is not an endorsement or representation of any warranty regarding the overall performance of the Facet solar mount attachment system itself. Any movement of the Facet solar mount attachment system causing cracking or failure of the water tightness of the GAF EverGuard® membrane or HydroStop® roof system is not covered by the GAF guarantee.

If you have any further questions, please call 1-800-766-3411. Thank you for choosing a GAF roofing system.

Sincerely,

Bill Broussard
